Experience

KPMG / UX/UI Designer Lead

FEB 2022 – PRESENT

In my current role at KPMG as a UX/UI designer, I lead the design process by conducting user research, creating wireframes, and developing interactive prototypes to optimize the user experience for complex digital solutions.

Collaborating closely with cross-functional teams, I implement user-centric design principles, ensuring our products align with business objectives and deliver a seamless and engaging interface. Additionally, I contribute to design strategy discussions, fostering a user-centered design culture within the organization.

SIDAT / Software Programmer

SEP 2018 – JAN 2022

Design, development, presentation, and application of PLC programs, including visualization (HMI), for technical industry automatic devices. Application of software takes place worldwide.

Freelance / UX/UI Designer

JAN 2021 – JAN 2022

Creating an intuitive and visually appealing user interfaces for various clients, conducting user research, developing wireframes, and delivering polished designs aligned with brand identities and user needs.

Education

Google UX course

APR 2021 – JUN 2021

This course equipped me with proficiency in the complete design process, from empathizing with users to testing and iterating on designs. I also gained expertise in UX research, applied essential concepts like user-centered design and accessibility, and successfully created a professional UX portfolio featuring diverse end-to-end projects.

Interface design

NOV 2021 – JUN 2022

Having completed the "Interface Designer" course on Practicum by Yandex, I acquired comprehensive knowledge and skills in designing user-friendly and functional interfaces for web and mobile applications. Throughout the course, I delved into contemporary methods of creating interfaces, covering graphic design, prototyping, user experience research, and principles of visual design. The emphasis on hands-on experience allowed me to apply theoretical concepts to real projects, receiving valuable feedback from experienced instructors.

ICT (VŠCHT) Prague / Master's degree

SEP 2013 – JUN 2018

Master's degree in chemical processing of oil and gas.
